PROFESSIONAL SUMMARY

Senior Product Designer with 8+ years of experience designing SaaS, healthcare and mobile products for companies in the United States, UAE and Germany. Specialized in healthcare UX, including telemedicine tools, physician SaaS platforms and patient-facing apps, with a focus on accessibility-first design systems and usability research. MBA in Marketing, bringing a business lens to every design decision. Uses AI-assisted workflows to move faster from research to tested prototypes.

CORE SKILLS

Product & UX: User Research, Usability Testing, Wireframing, Prototyping, User Flows, Information Architecture, UX Writing
Design Systems & UI: Figma Design Systems, Component Libraries, Accessibility (WCAG), Responsive Web, Mobile Apps (iOS & Android)

Tools: Figma (incl. Dev Mode), Adobe Photoshop, Illustrator, After Effects, Premiere Pro, Lottie, Miro, Notion

AI Tools: ChatGPT, Claude, Midjourney, Runway, Adobe Firefly, OpenArt

Collaboration: Agile, Remote Cross-functional Teams, Developer Handoff, Stakeholder Presentations

PROFESSIONAL EXPERIENCE

Senior UX/UI Designer | MyMedicalHub International

Nov 2023 – Present

Florida, United States (Remote)

- Lead the redesign of the company's core healthcare SaaS product, from research and wireframes to high-fidelity prototypes and developer handoff.
- Built accessibility-first UI components within a Figma design system, keeping web, tablet and mobile experiences consistent.
- Run usability testing sessions and refine designs based on user feedback before release.
- Partner with product managers and engineers to simplify key user flows and improve task efficiency.

UX/UI Designer | Royex Technologies

Mar 2023 – Nov 2023

Dubai, UAE (Remote)

- Designed SaaS dashboards and mobile apps for clients across the Middle East, improving usability and onboarding.
- Conducted remote user testing, created wireframes and iterated designs based on feedback.
- Delivered developer-ready design specs into an agile pipeline using Figma Dev Mode.

User Experience Designer | iHealthScreen Inc.

Jan 2022 – Mar 2023

New York, United States (Remote)

- Designed Doc Spot Rx end to end, a SaaS platform for physicians to manage patients, appointments and prescriptions: 32 screens, a full component library, and usability testing with 12 doctors.
- Revamped landing pages and dashboards for telemedicine tools.
- Improved the usability of an LMS platform used by healthcare educators.
- Used surveys and website analytics to learn why some pages performed better, and applied those insights to new designs.
- Built storyboards to align clients and senior management on product direction.

Senior Visualizer | Ad Headquarter Ltd.

Jul 2020 – Dec 2021

Dhaka, Bangladesh

- Set creative direction and brand guidelines for the agency and its clients.
- Managed multiple projects at once, delivering print and digital collateral on schedule and within budget.

DiGiCart Solutions

Dhaka, Bangladesh

Graphic UI Designer (Contract)

Oct 2020 – Nov 2021

Creative Designer

Dec 2019 – May 2020

- Designed branding, marketing assets and animated UI mockups for digital products.
- Created UI/UX for mobile apps and websites, plus motion content for print and web.

UI Designer (Freelance) | Instafashion Official

Aug 2019 – Jun 2020

Germany (Remote)

- Turned product concepts into functional prototypes and presented ideas to the team for review.
- Revised existing designs based on customer expectations and engineering feedback.
